Subject: Responses to Comments on the RAP

Hi Everyone – I have attempted to capture the revisions discussed during our technical meeting in the attached RLSO version of the responses to public comments from the June 20 public meeting. Peter – per our discussion, please insert these comments into the responsiveness summary. There may be a few edits based upon this teams review, but I will be happy to incorporate those edits next week.

I will edit the CAG formal responses tomorrow.

Thanks! Chris
